

Product Category Creation For Healthcare Kiosks

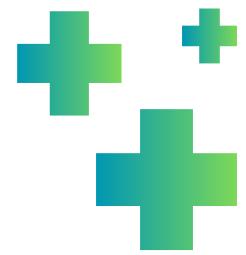

Should Intel Co-Create a new Device Category or add features to existing Healthcare Kiosk?

Yes, we think Intel should add features to existing Healthcare Kiosk.
We added some new features to the pre-existing OPD kiosk.

1. OPD (Outpatient Department) Kiosk is a self-service solution used in hospitals and clinics.
2. It helps streamline patient registration, appointment scheduling, billing, and information access.
3. The kiosk is designed to automate routine tasks, reducing the need for manual administrative work.
4. It significantly reduces patient waiting times by speeding up the process.
5. Overall, the kiosk enhances operational efficiency and improves the patient experience.

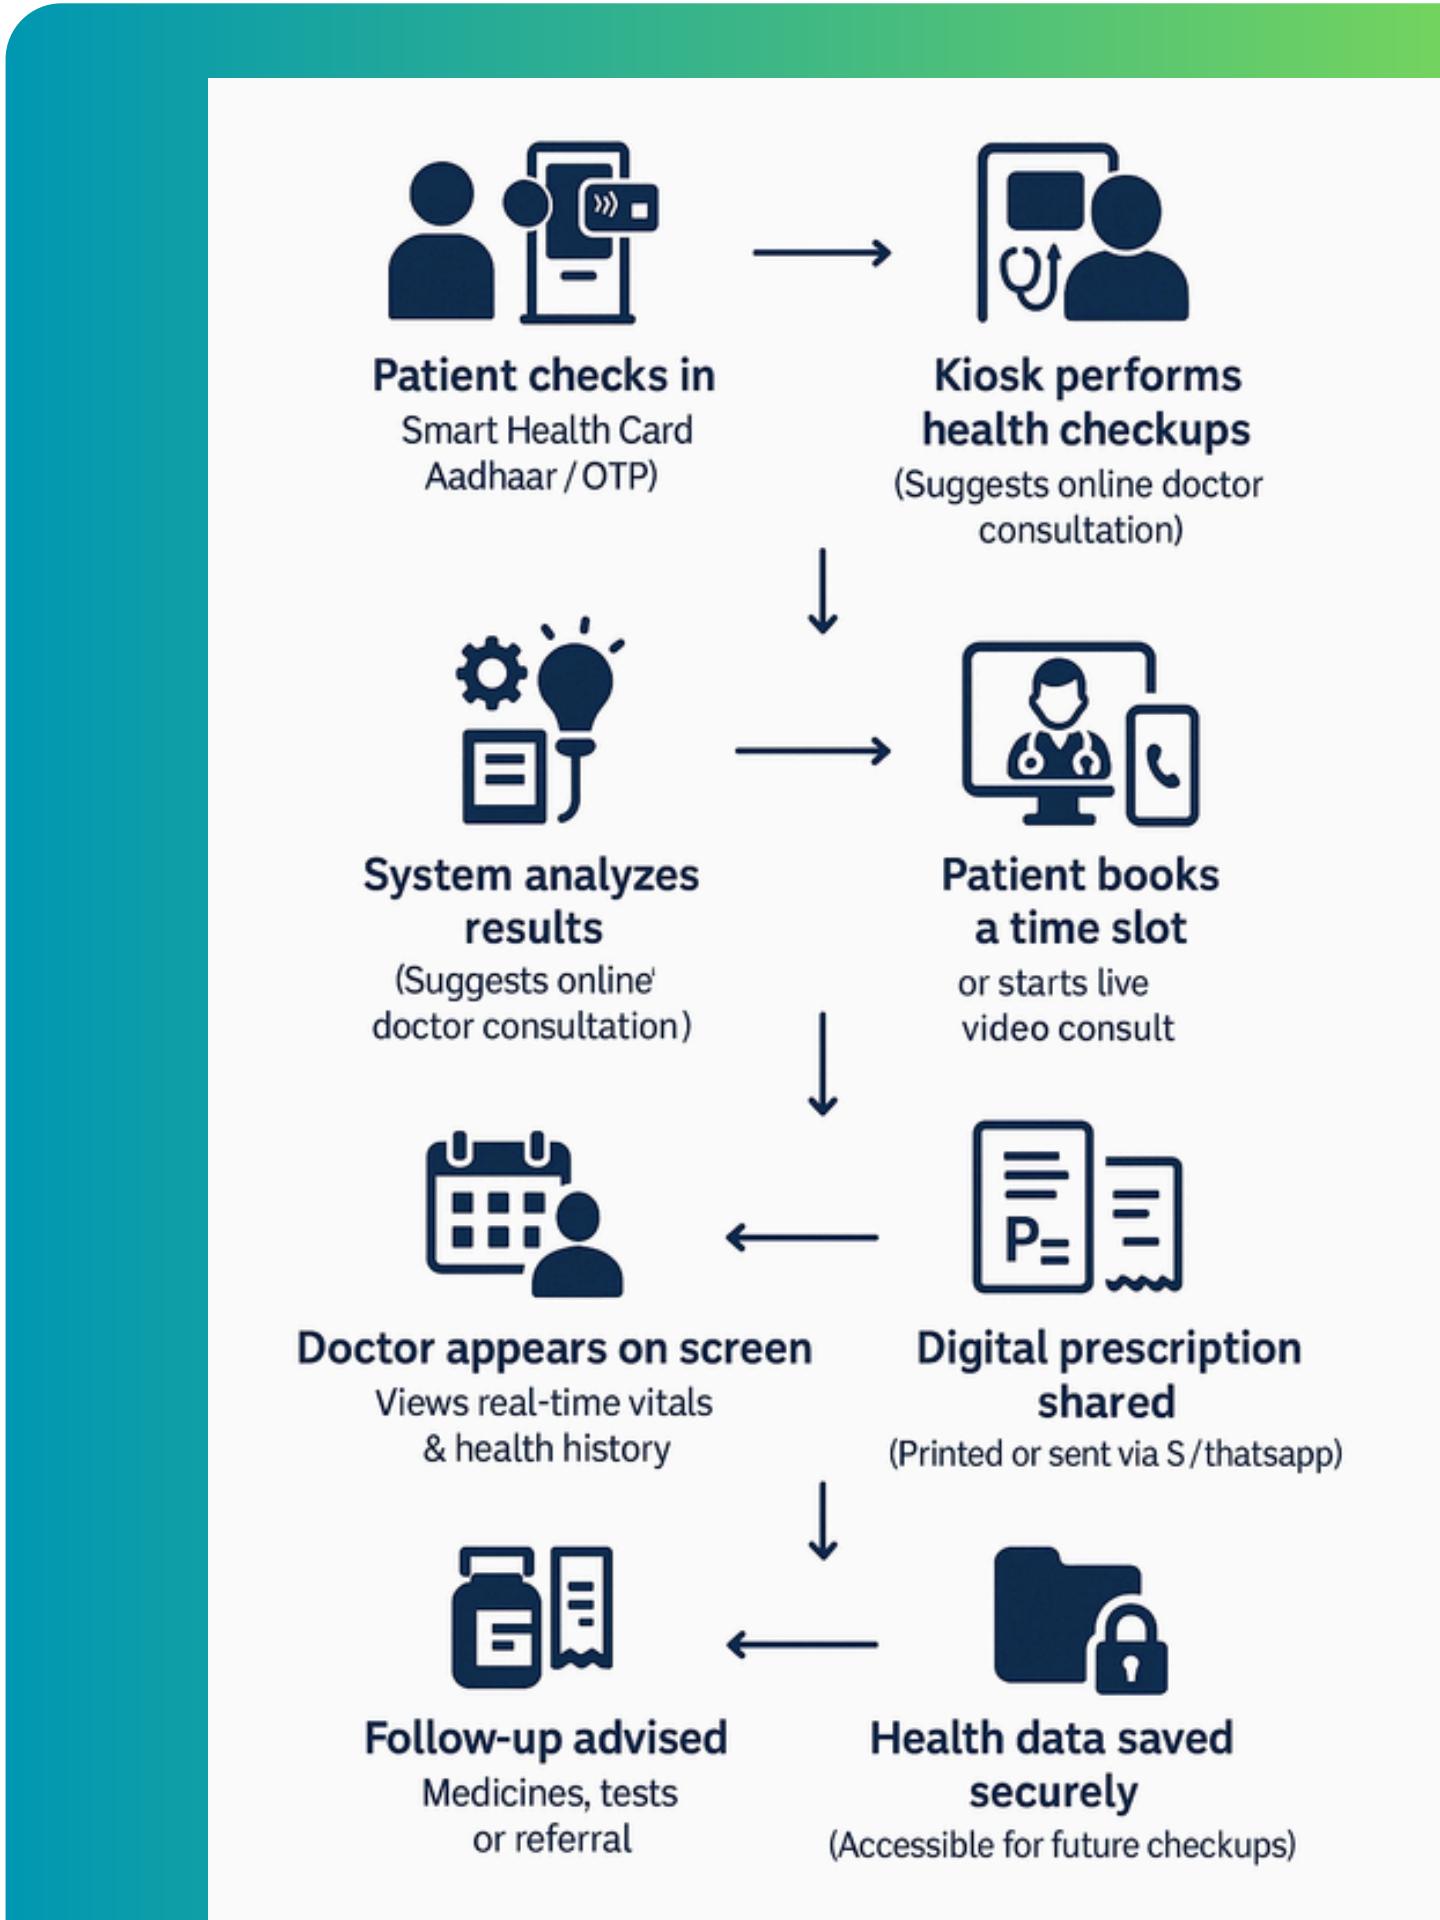

OUR KIOSK(Swasthya Seva)

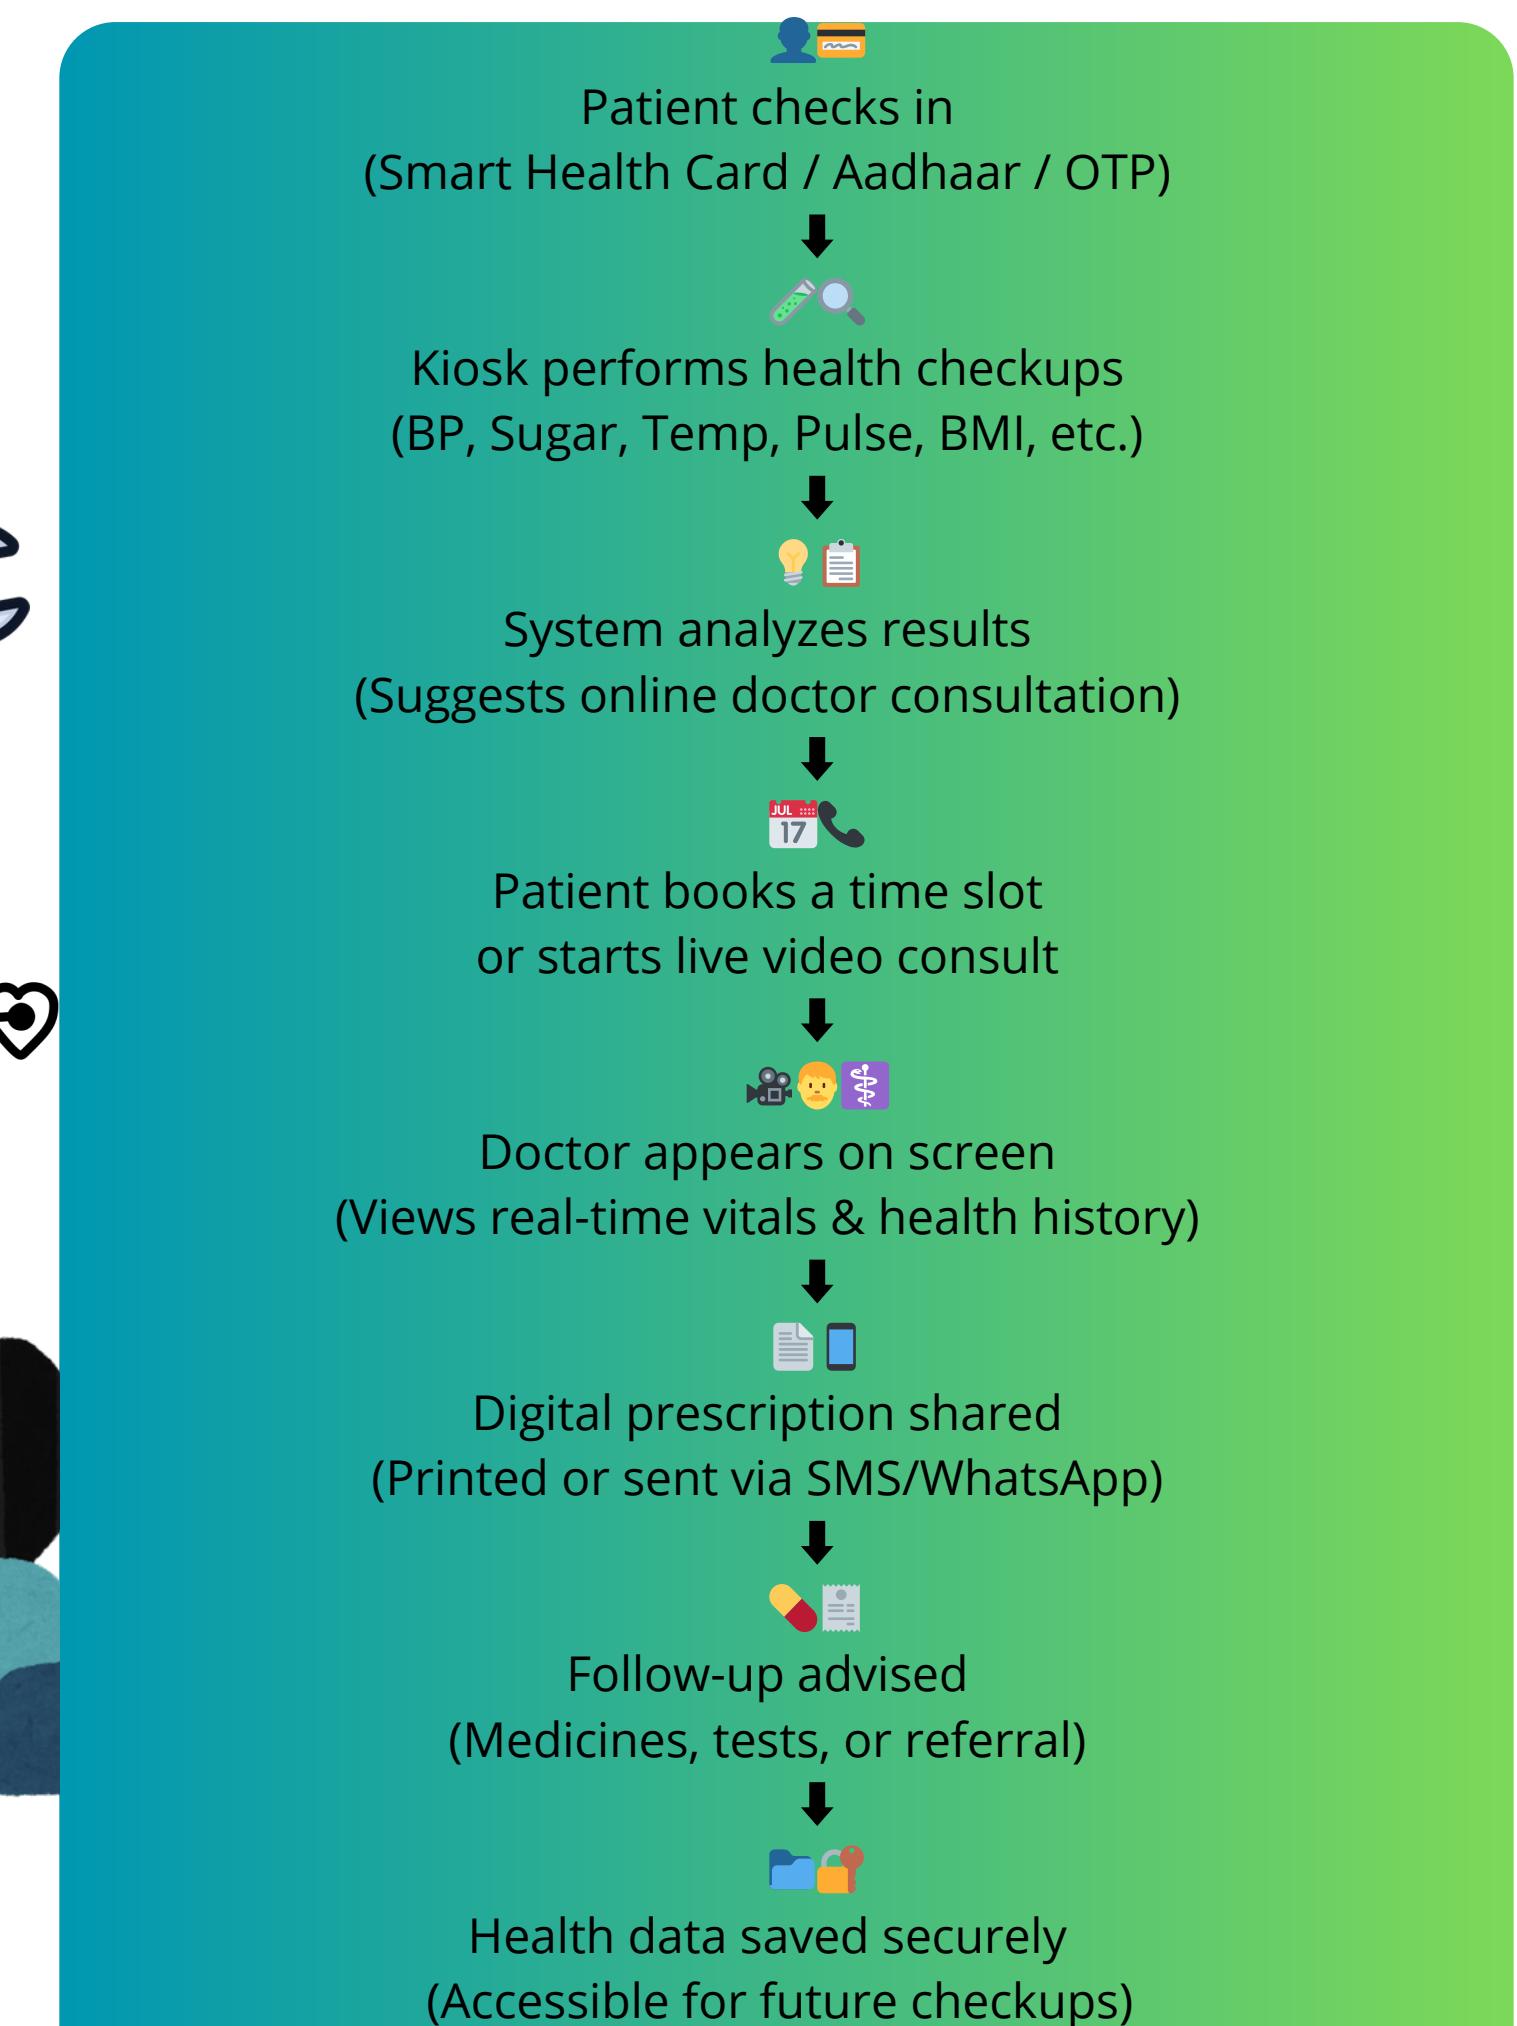

1. Our kiosk 'Swasthya Seva' provides first-aid service for instant solutions.
2. It provides emergency service for those having serious problems.
3. Health card feature allows the users to access their health records, appointment history, making payments using unique card or ID
4. Healthcare ticket is issued after booking an appointment.
5. Voice assistance available in multi-language can help users to use the kiosk's facilities easily.
6. "This smart health kiosk card will act as a digital Ayushman Bharat card, reflecting the ₹5 lakh medical benefit available to eligible patients — which they can use for cashless treatment at any empaneled hospital across India, simply by swiping the card."

WORK FLOW OF KIOSK CARD AND PATIENT REPORT ACCESS

Workflow of Kiosk-to-Doctor consultation

How Ayushman Bharat Yojana Benefits Kiosk Manufacturers

1. Massive Market Expansion

- Eligible Population: Over 50 Cr Indians covered under Ayushman Bharat
- Kiosk demand increases in:
 - Government hospitals
 - Private hospitals empaneled under AB-PMJAY
 - Rural PHCs and CHCs (Primary & Community Health Cent)

2. Mandatory Health Card Use = Terminal Sales

- Proposal: All empaneled hospitals must accept the kiosk smart card
- Even hospitals without full kiosks will need:
 - Swipe terminals for card payments
 - Report access terminals in doctor cabins
-  Every empaneled hospital becomes a potential buyer

"A revolutionary health card with ₹5 Lakh Ayushman Bharat coverage — secure, smart, and usable only by you."

"When every swipe saves lives — that's not a card, that's empowerment."

"A card that doesn't just carry data — it carries promise of treatment, anywhere, anytime."

Cost and Market Analysis

Profit Margin for the Clinics or Hospitals

↗ Daily Profit Estimation (per 100 patients)

Diabetes: 10 patients \times ₹38 = ₹380

Malaria: 20 patients \times ₹90 = ₹1,800

Fever: 100 patients \times ₹8 = ₹800

Typhoid: 10 patients \times ₹75 = ₹750

→ Total Daily Profit = ₹380 + ₹1,800 + ₹800 + ₹750 = ₹3,730

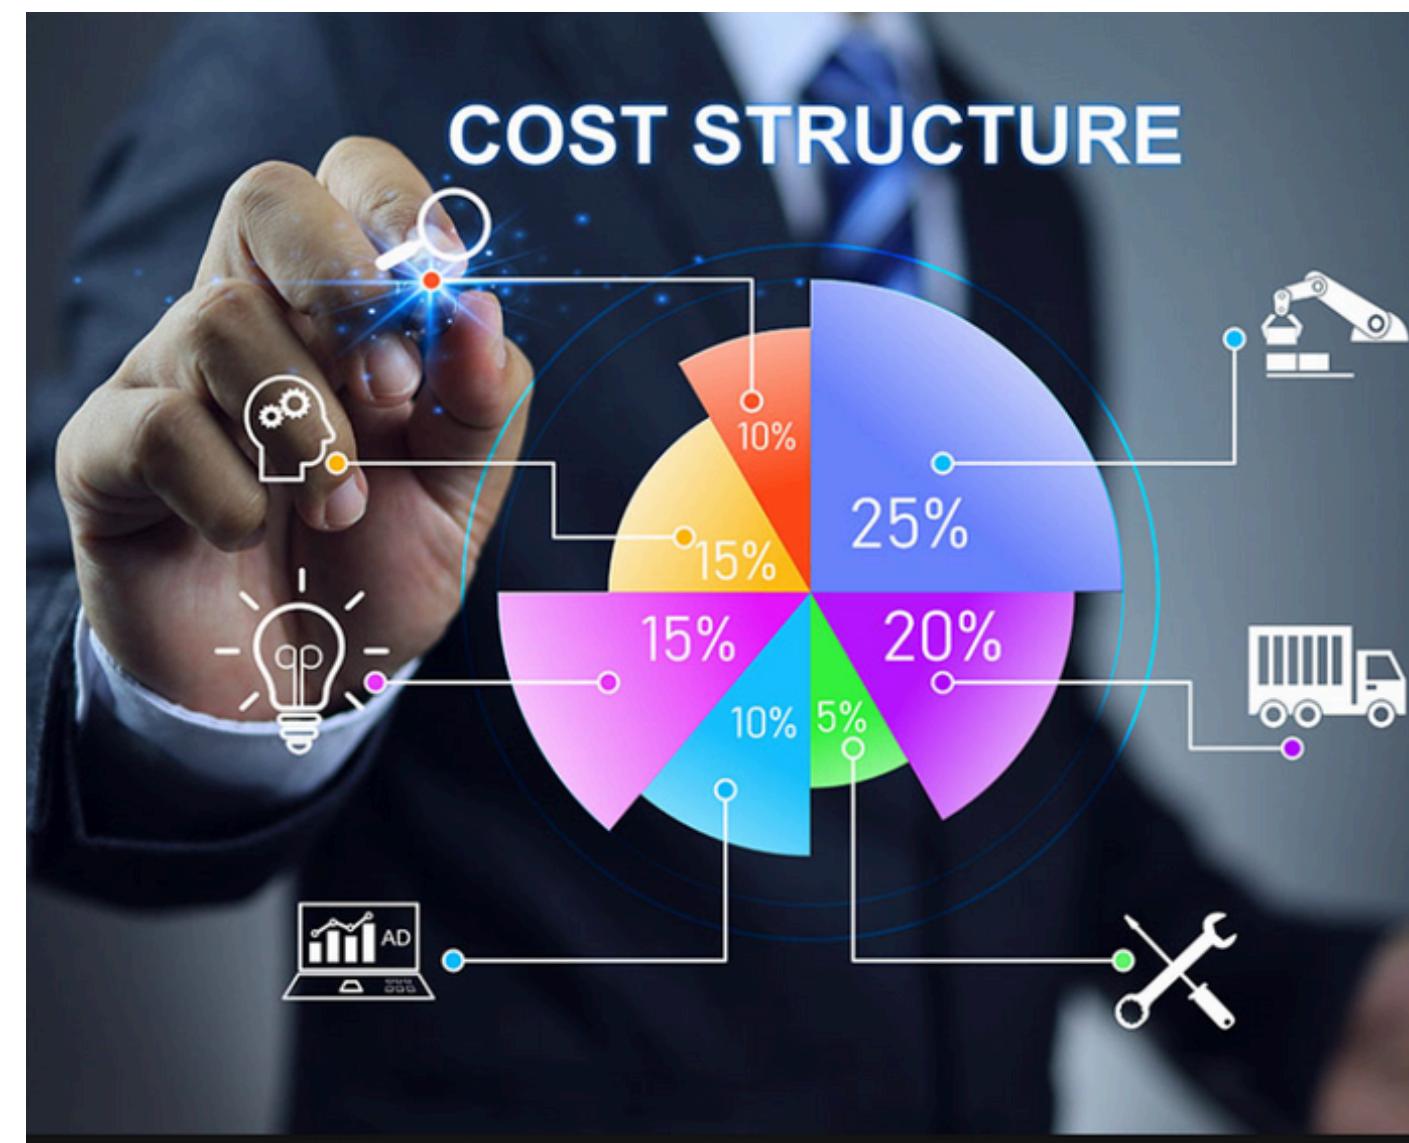

📅 Monthly Projection (26 days/month)

₹3,730 \times 26 \approx ₹96,980/month

Kiosk Selling Price Before New Features = 7 lakh with installation

Kiosk Selling Price After New Features = 9 lakh with installation

(The Price of kiosk is Marked according to the Kiosk available in the market by Clinics on Cloud)

Future objectives

"Doctor prescribes. System speaks. Medicine appears."

- 💊 Instantly dispenses prescribed meds
 - 🎙️ Voice-guided support, zero confusion
 - 🧠 Spreads health awareness effortlessly
- Smart healthcare — simple, seamless, magical.

"Like the voice at a railway station — but smarter!"

- A clear, calm female voice that:
 - 🔊 Guides you to the right doctor
 - 🧠 Shares health awareness tips
 - 💡 Keeps patients informed & stress-free
- One voice. Endless care. Smart hospitals start here.

Child Growth & Development Kiosk

Tracks a child's height, weight, posture, and cognitive development milestones.

Ideal for schools, daycares, and pediatric clinics...
